Moose Cr

Clear Hills

Sponsor-China

ARRIBA is a land service company and our specialty is assembling strategic mineral packages for explorers. Contact: Jim Stapleton (403) 256-0659.

OIL & GAS

Production: purchase and sale, farm in, farm out, royalties, joint ventures.

MINING

Strategic Acquisitions: research, logistics, land titles, freehold, due diligence, estates. As first President of Ironstone Jim Stapleton assembled the 1.24 Billion ton Bad Heart iron mineral package for TUL/Ironstone Resources and the project is planned as an iron ore mine in the Clear Hills of northwest Alberta.

SURFACE & PLANNING

Planning and Logistics: execution of drilling programs, surface leases, right-of-ways.

Who we are; what we do

- Research - principles of strategic mineral resource markets
- Evaluate - exploration & exploitation
- Our mission - create the win-win for companies looking to divest
- Vision - companies are continually in transition, concentrating core areas
- The Global perspective in minerals is the right perspective
- Who we are - negotiators; oil & gas and industrial minerals
- What we do - aid in building Canadian businesses.

Value proposition

- Create new wealth by finding ways to advance mineral properties
- Mix and match and add value to properties
- Rationalize mineral ownership
- Investor relations info & campaigns
- Media room questions and answers
- Circulate corporate summaries.

Our stock-in-trade is CONNECTIONS

Connections lead to P & S agreements, joint venture opportunities and financings.

- consolidate, restructure and re-sell
- assist - investment management.

We are affiliated with Copperstone

CHINA has opened the doors to the world of strategic minerals and we promote cooperation and joint ventures between mineral explorers and industrial manufacturers in Asia. ARRIBA works with Copperstone Resources Ltd. in China. International exposure gives greater access to capital sources.

PRINCIPLES

Intelligent investing in 2010 focuses on deployment of capital in assets that are critical to the process of revitalizing the global economy.

BUSINESS PLAN

The Global Economy is steering a path toward decoupling the prime energy sources from oil and gas supplies, however, ease of use, presence of infrastructure, and security of supply in Canada, will make this search for alternates a long and expensive process.

REVENUE GENERATING

Acquisition & Divestiture companies are doing 20 Billion \$ in A&D and fees for finding and placing properties and doing financings is 5% to 10% of sale.

SOURCES of CAPITAL

Packaging quality properties means investment opportunity. The vision is to be creative in financing packages. A small investment firm can be adaptable, taking a broad view. We work on unconventional financings.
